The **Global Industrial Summit 2026**, to be held at Veer Surendra Sai University of Technology, Burla, is a premier platform that brings together industry leaders, innovators, and aspiring engineers to explore the future of industry and technology. Centered around the theme “Where Vision Meets Opportunity”, the summit aims to bridge the gap between academia and industry through insightful discussions, keynote sessions, and meaningful interactions. As the university celebrates its 70 glorious years of excellence and powering innovation, the summit reflects its commitment to empowering talent, fostering innovation, and strengthening industry collaboration for building a future-ready workforce aligned with global industrial demands.

About Veer Surendra Sai University of Technology

Veer Surendra Sai University of Technology (VSSUT), formerly known as the University College of Engineering (UCE), Burla, is a state university located in Burla, Sambalpur, Odisha, India. Established in 1956, it is the oldest engineering college in Odisha. UCE Burla's former name was officially changed to its current name on 10th June 2009, because of a resolution by the Government of Odisha to accord it with the status of a unitary university. Situated in a 350-acre residential campus near the Hirakud Dam, it offers undergraduate, postgraduate, and Ph.D. programs across various engineering disciplines, serving over 5,200 students with a focus on technical education and research. VSSUT is ranked among the top engineering institutes (101-150 range by NIRF 2023) and is known for its strong technical education and research, with notable alumni and, in some cases, top-performing students in national examinations.
